Nursery- Coverage is through the Master the Curriculum scheme. This scheme is aligned with the White Rose Maths framework and the National Curriculum and has a mastery approach which is in line with the reception curriculum and the rest of the school.

Reception- This project aims to secure firm foundations in the development of good number sense for all children from Reception through to Year 1 and Year 2. Attention will be given to key knowledge and understanding needed in Reception classes, and progression through KS1 to support success in the future.

Master the Curriculum scheme is used to ensure coverage in all other aspects of Early Years Maths. This has been chosen to ensure progression from nursery maths curriculum.
